Marcus:

As we discussed this afternoon, effectively immediately please make sure any review comment memos, revisions to those memos, or emails addressing comments with consultants, are reviewed by either John Igbinovia or me before they are sent out to consultants or other departments.

David

Dave:

Is there an issue with my reviews at the moment? To screen all of my work would really depreciate productivity.

Please provide me with specifics because I was told that I was meeting all criteria upon being retained to be taken off of probation.

Thanks,

Also, I was under the impression that an Engineer III would require minimal supervision.
